Is YOUR Subscription to The Times Paid?

Consult your address label on this paper—compare with calendar and if in arrears kindly remit. Addresses written in pencil generally infer paid up subscriptions not yet changed on printed mailing list. Immediately following this reminder to delinquent subscribers will be found each week a list of those paying subscriptions during the current week.

SUBSCRIBERS PAYING FOR THE TIMES DURING THE WEEK

Following are the names of those paying subscriptions to The Times during the past week:

Mrs. L. Stedman, Macleod; F. J. Wall, Macleod; A. L. Mackenzie Macleod; H. M. Shaw, Nanton; J. S. Rothney, Macleod; J. V. Walker, Macleod; Geo. R. Cohoon, Macleod; W. C. Skelding, Toronto; Jas. L. Jackson, Glenwoodville.

TO SUBSCRIBERS WHO ARE IN ARREARS TO THE TIMES

FRIEND SUBSCRIBER—

We wish to make to you a few statements of unadorned facts:

Paper on which to print this newspaper costs us \$1200.00 per year—which is obviously some item of expense—especially when it is taken into consideration that this same print paper three years ago would not have cost more than \$400.00 per year—these be strenuous times in which to publish a newspaper as all other expenses in connection with publication are increased in about the same ratio as the cost of the paper.

On The Times subscription list there are \$1,800.00 in unpaid subscriptions.

We suggest to you that with print paper alone costing us \$1200.00 per year it is a hard proposition to get out The Times, keep it up to a fair standard and carry credits to subscribers to the amount of \$1,800.00. Your proportion of this indebtedness is a small matter to you likely—the aggregate of \$1,800.00 is a fairly large and uncomfortable matter to us. Again we suggest—that each subscriber to The Times who is in arrears comes forward promptly NOW and pays up such arrears and thus co-operates with us in giving Macleod one of the best country weeklies in Alberta.

DOMINION DEPARTMENT OF AGRICULTURE

The Report of the Minister of Agriculture at Ottawa, for the year ending March 31st, 1920, makes reference to a conference of representatives of Federal and Provincial Departments at which an agreement was reached which will, to a large extent, eliminate overlapping and allow for close co-operation in the varieties of work carried on. Production, it was agreed, is to be carried on through provincial activities, while marketing and experimental work are to be cared for by the Dominion Department, except where special arrangements to the contrary are deemed wise. The Report of the Minister covers, in addition the work of the Department carried on through the year by the various branches:—Dairy and Cold Storage, Seed, Live Stock, Health of Animals, Fruit, Entomological, Publications, International Institute, and Experimental Farms. Among the new activities reported are the record of performance for poultry and special relief policy of the Live Stock Branch, with relation to the supplying of feed to unfortunate districts in the Prairie Provinces. The Report is distributed by the Publications Branch, which is shown to have sent out, during the year, two and a half million copies of publications.

MOTHER NATURE'S DRESS

Mother Nature wears a dress
All trimmed with grass and flowers;
When it gets a dusty stain,
She washes it with showers.

"COMING EVENTS CAST THEIR SHADOWS BEFORE"

OLD TIMERS' ORGANIZATION MEETING

A movement is afoot in Macleod to form an Old Timers' Organization—those eligible to join are thirty (or more) year residents of Macleod and district. A meeting is called for Saturday, Feb. 12th at 3 p.m. in the Town Hall, Macleod, at which it is expected the Old Timers will turn out in full force when it is confidently hoped the association will have been recorded as existent with a full quota of officers and members.

KEEP THIS DATE OPEN

A Tea Dansant will be held in the G.W.V.A. Hall, 17th March, St. Patrick's Day, by Ladies of the R. C. Church—4 to 6—music by Miss M. Watson—Admission 50 cents. Dance at 8.30 to 12. Refreshments. Ryan's Orchestra. Admission 50 cents.

MEETING OF MACLEOD U. F. A. FEED COMMITTEE

A meeting of above committee will be held at the U.F.A. Store on Saturday, February 19th 1 p.m., to hear the report of auditor and general discussion of the business transacted. All parties interested are requested to be present.

Macleod U. F. A. Committee,
49-2t F. A. Adams, Chairman.

The Women's Institute will hold their regular meeting Tuesday, February 15th at the home of Mrs. W. G. Ryan, Twenty-sixth Street. 49-1t

REGULAR MEETING L.O.F.E.

The regular monthly meeting of the L.O.F.E. will be held in the Methodist Hall, Monday, February 14th at 3 o'clock p.m. Important business—election of officers. 49-1t

L. O. O. F. ST. VALENTINE MASQUERADE BALL

The L. O. O. F. in giving their big Masquerade Ball on Wednesday, February 16th, are putting forth every effort to make it the premier dancing affair of the season—believing that their efforts will draw a big crowd, the lodge has decided to hold the Masquerade Ball in the G. W. V. A. Hall, which will afford more room and conveniences than the L. O. O. F. Lodge Rooms. The sister lodge (the Rebekahs) will provide the refreshments which is a guarantee of an excellent luncheon—Don't fail to keep this date open.

ALL SOLDIERS' BRANCHES MAY BE AMALGAMATED

OTTAWA, Feb. 5.—(Can. Press).—The department of soldiers' civil re-establishment, the pensions and soldiers' insurance branches and other branches dealing with returned soldier problems, are likely, it is reported, to be amalgamated into one department to be known as the department of returned soldiers' affairs. The creation of such a department receives considerable support on the ground that it would expedite the handling of returned soldier problems. If created, it probably would be handled by a deputy minister working under the general supervision of one of the existing ministers. —Lethbridge Herald.

We have seen some college bred young men who became fairly well educated in later life.

TO A STREET URCHIN

O little feet, that distance mocks
And scoffs at weariness today;
O little tongue that ever talks
Like some sweet babbling brook at play;

I wonder what the future holds
I wonder what the future holds
In store for thee. Could I but see
I would draw back the mystic folds
And view thy fate that is to be.

What mother's love is pictured there,
In that round chubby face I greet.
What father guards thee with a prayer.

Or is thy home the open street?
What destiny shall make or mar
The trail perchance you have to take?

What unseen hand shall reach from far
To keep the best of life awake?

O little eyes that look in mine,
The road is rough, the hills are steep;
But truth and courage can be thine,
And great men rise while sluggards sleep.

Whatever manhood's lot may be—
A thorny path or flowery bed—
I hold my helping hand to thee,
And love thy little tousled head.

—James A. Ross in the Rochester Post-Express.

GENERAL ELECTION MAY BE RESULT OF GOV'T DEFEAT

OTTAWA, Ont., Feb. 8.—The possibility of an early dissolution of parliament with an election in June, is being canvassed today. The result of the West Peterboro election while what might fairly have been anticipated so far as the government candidate was concerned, with Mr. Burnham in the field, has had a cumulative effect perhaps greater than its actual political significance warrants. The fact that an influential Montreal Conservative newspaper is calling for a general election draws attention to the course of bye-elections since 1917. Summarized, out of 15 contests, the government has held five seats, four of which were contested by ministers, has lost six and gained one. The Liberals have held three, lost none, and gained one. The Farmers have gained five and Labor one. The government majority in the house is now normally about 25, but there are a number of government supporters who are sick or absent, and for whom it is doubtful if the Liberals will be inclined to supply pairs, which reduces the majority to around twenty. This is a reduction from a majority of about 73 with which the government came back from the country in 1917.

It is now suggested that the coming session may be a brief one, with a dissolution in April or May, and a general election in June, without the passage of either a redistribution measure, or tariff revision. In the meantime, cabinet reconstruction which has been persistently urged on the premier by his friends has become increasingly difficult, involving as it would, further bye-elections and what would seem as though a general election might be the wiser move, so far as the government is concerned. The general opinion in political circles here, however, is that such a move would not result in any clarification of the present obscure situation, but rather intensify it, as the probability is that the result would be that no party would have a clear working majority.—Calgary Herald.

THE FARMER OF THE FUTURE

The farmer of the future must be a mechanic rather than a day laborer, remarks D. D. Gray, Superintendent of the Central Experimental Farm at Ottawa in the December number of the Agricultural Gazette of Canada. This of course must not be taken in a literal sense, but rather as suggesting that the future agriculturist must combine with a multitude of other things he requires to know a greater knowledge of mechanics than he has formerly had. Accepting this suggestion as his text, Mr. Gray tells of records that have been kept at the Central Farm on the cost of operating three makes of tractors. The cost of operating the smaller tractor is shown to be greater than the cost of operating the larger, that is in regard to horse power. The cost of discing with the smaller is shown to be less due to the greater speed possible than with the larger. The cost of ploughing with the smaller is more than with the larger. The lighter machine burned gasoline at a cost of 45 cents per gallon and the heavier machine, kerosene at 28½ cents per gallon. Cylinder oil cost 85 cents per gallon.

THE HYMNS OF LONG AGO

There's lots of music in 'em—the hymns of long ago,
And when some gray haired brother sings the ones I used to know
I sorter want to take a hand, I think of days gone by,
"On Jordan's stormy banks I stand and cast a wistful eye!"

There's lots of music in 'em—those dear, sweet hymns of old,
With visions bright of lands of light, and shining streets of gold;
And I hear 'em ringing—singing where mem'ry dreaming stands,
"From Greenland's icy mountains to India's coral strands."

They seem to sing forever of holier sweeter days,
When the lilies of the love of God bloomed white in all the ways;
And I want to hear their music from the old-time meeting's rise
Till "I can read my title clear to mansions in the skies."

We never needed singing' books, in them old days—we knew
The words, the tunes of every one—the dear old hymnbook through!
We didn't have no trumpets then, no organs built for show,
We only sang to praise the Lord, "from whom all blessings flow."

An' so I love the good old hymns and when my time shall come—
Before the light has left me, and my singing lips are dumb—
If I can hear 'em sing them then, I'll pass without a sigh
To "Canaan's fair and happy land where my possessions lie."—Frank L. Stanton in the Atlanta Constitution.

GENERAL SMUTS WINS VICTORY IN SOUTH AFRICA

PRETORIA, Union of South Africa, Feb. 9.—General Smuts, prime minister of the Union of South Africa, was elected to the house of assembly from the district of Pretoria West, in the elections held throughout the union yesterday.

Returns received up until an early hour today indicated the South African party under the leadership of General Smuts had won a victory.

Labor Party Collapse
LONDON, Feb. 9.—(Canadian Associated Press)—A Johannesburg cable to the Canadian Associated Press says that at one o'clock this morning the returns showed that the South African party had elected thirty-eight candidates, the Nationalists 5, and the labor party 8 and the constitutional Democrats 1.

General Smuts has been returned for Pretoria West by a big majority. The feature of the results, so far as known, is the collapse of the labor party. Apparently the labor party will only have eight members in the new assembly against 21 in the last house. Col. Cresswell, leader of the laborites, was defeated in Treysville.—Lethbridge Herald.

WOMEN MOST EXPERT IN TECHNIQUE OF SMUGGLING AND SHOP-LIFTING

Women are the world's best shop-lifters and smugglers.

There are those who claim that the Eighteenth Amendment is training men in the gentle art of smuggling, and the poor dears, considering their many centuries of being able to get what they want when they wanted it, are really displaying considerable inventiveness and initiative. But at that, they are accomplishing little compared to what the ladies, God bless 'em, could put over if they turned their attention whole-heartedly to the task.

For women are by instinct clever and secretive. Moreover, women, even the most extravagant, like to save money when they can—to enable them to indulge in more extravagance. So they figure, in their pretty, innocent way, that if they can save the duty on those perfectly elegant gloves they got in Paris, or that wonderful hand-made lace they picked up in Belgium for a mere song, they are doing a thrifty and not immoral act. Anyhow, why should they pay the old government such a lot for something that doesn't concern the government in any way? And then have the government waste the money, more than likely, paying for trips for horrid old politicians!

That's the way the average feminine psychology works. And then the feminine ingenuity gets busy, and the way that dear little woman, (who has been a member of the First Church all her life and sends the children to bed without any supper when she discovers them in a fib)—the way that dear little woman outwits the snoopy old customs men is a caution!

Of course a professional gem thief has all sorts of prepared equipment, but the determined amateur from Oskaloosa, Kansas, does pretty well without any hollow umbrella handles or trick heels to her slippers. A pair of gloves fitted into a stocking and rolled up expertly makes a perfect imitation of a pair of hose folded after mending, and if she can just keep from blushing too furiously when the customs man gets to the stockings, she's sure she can get by.

Feminine wearing apparel provides excellent refuge for small articles, and even the feminine pompadour has been known to hide valuable trophies of travel. The miles of lace that have been smuggled into the country tightly wrapped about feminine forms would, no doubt, if placed end to end, reach from the earth to the sun and half way back. The day she lands after a foreign tour is the one and only day upon which most women are willing to appear stouter than the good God and a starched diet have made 'em.

Tricks of the smuggler's wily trade are amusingly shown in one scene of "Blackbirds," the picture starring Justine Johnstone, which will be shown at the Empress Theatre Friday and Saturday. The heroine of the play is the most expert gem smuggler in the world, member of a gang of thieves known as the "Blackbirds." Her return from a trip and delivery of her smuggled booty to the chief of the gang is one of the most interesting scenes of the play. Director Jack Dillon, who directed Mary Pickford in "Suds" before beginning Miss Johnstone's first star picture, saw to it that the heroine's smuggling tricks were all professional ones, correctly executed. The hollow heel and parasol handle were but details in the clever smuggler's campaign in this brilliant drama.

GORDON, LIBERAL WINS IN WEST PETERBORO BY 1,200

PETERBORO, Ont., Feb. 8.—Early returns from outlying districts this morning made no change in the relative standing of the five candidates in the West Peterboro bye-election for the federal house yesterday, when George N. Gordon, Liberal candidate was elected by a plurality of about 1,200 votes over the government candidate, R. Denne.

A Political Upheaval
WEST PETERBORO, Feb. 8.—Peterboro is slowly waking up to the fact that there has been a local political upheaval. Belated returns this morning increased George N. Gordon's lead to over 1,300. The one poll to hear from has about thirty votes altogether. The official report of the returning officer will not be available until Friday of this week. Mr. Gordon is busy receiving telegrams of congratulations from all parts of the Dominion and two from London, England.

With five candidates in the field it was not expected that the turnover would be so sweeping. Every available means was used to bring out the voters and it is estimated that 13,000 votes were polled out of a possible 18,500.

With one poll to hear from the standing is now as follows:
Gordon 4,165; Denne 2,844; Burnham 2,497; Campbell 2,497; McMurray 1,011.

The result ties Burnham and Campbell for third place.

Newspaper Comment

La Canada, Montreal:
"For a Liberal to have carried this old Tory stronghold by a crushing majority indicates to what a degree popular feeling has thought proper to show itself.

"The victory has a double significance, it is a complete rebuff for the Meighen government and it is a brilliant triumph for Liberal ideas."

Le Soleil, Quebec:
"The result is chiefly a warning to Mr. Meighen to give up the government. The fact that the cities of this Conservative county have given a strong majority to Mr. Gordon means that the tariff question is not concerned."

Toronto World:
"The Peterboro bye-election is a black eye for the government. The government displayed poor judgment in running a second Conservative candidate to Mr. Burnham, who was first in the field and could have been returned by acclamation, and he would have given independent support to the government. However, post mortems are of no avail unless profit is derived from what they disclose."

Halifax Chronicle:
"The verdict is not only a grim disappointment; it is a smashing defeat for the government and following so closely its dramatic reverse in East Elgin, it may well prove disastrous. At all events, it is unmistakable evidence that Ontario has ceased to be a Conservative stronghold and the government has not won popular confidence."

Saskatoon Star:
"Both Liberals and Conservatives are now clamoring for an election as a result of this bye-election. There is reason for one, undoubtedly, but having waited so long it is just a question whether the country could not afford to wait one year and see, and enable the west, after the census this year, to get the increased representation to which it is entitled."

The Fort William Times-Journal:
"It is hardly likely that Premier Meighen will take the verdict of West Peterboro as a mandate to go to the country."

"A group election, like a group government, forms a somewhat unsatisfactory basis for determining the sentiment of the majority of the electors, and the deductions that may be drawn from the result in West Peterboro will be as varied as the opinions of the persons expressing them." — Lethbridge Herald.

ROD AND GUN

Canadians have long known the wonders of big game hunting in Canada but this month's Rod and Gun in Canada contains an American's impression of what he terms the greatest big game hunt. Morris Ackerman, the famous American writer and big game hunter visited British Columbia last fall and with camera and pen he tells an interesting story of big game hunting in his own inimitable manner. In addition to this article, there are sixteen stories and articles dealing with the great outdoor life in Canada. The writers include Bonnycastle Dale, F. V. Williams, A. Byran Williams, Harry M. Moore and others equally well known to the readers of Canada's premier sporting monthly. The various departments are up to their usual high standards in this issue. "Rod and Gun in Canada" is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

FAMOUS WORDS OF FAMOUS WOMEN

"May I have another ballot. 'I've changed my mind.'"—Detroit News.

RUSSIA USES NO MONEY—BUSINESS ALL GOVERNMENT

TORONTO, Feb. 7.—Emerson A. McMillan, a Canadian engineer, who spent 18 months in Russia attached to the inter-allied economic mission and who was a prisoner of the Bolshevik forces about half of this time in an interview on Saturday stated that an order for the elimination of coin and paper money as a medium of exchange among the Russian people was made by Lenin just before he left Russia last October. Paper money had been turned out in such vast quantities, he said, that it was possible to get fifty thousand roubles in notes for one English pound sterling.

Mr. McMillan said it was difficult for a Canadian to conceive that there is no longer such a thing in that country as private business.

Everything that is done is done under the control of the Russian Socialist federated soviet republican government. In the city of Petrograd, Mr. McMillan said there were not more than half a dozen stores and those were catering only to the absolute needs of the people. Executions were so common in Russia, Mr. McMillan said, that according to one of the soviet papers in Moscow the executions averaged sixty a day last July. Some of the executions were for minor offenses. In one instance a peasant woman was put to death for having sold a head of cabbage to a private person instead of to the government stores.

Revolutionists Shot

LONDON, Feb. 7.—A dispatch to the Central News from Copenhagen says the Bolshevik newspaper Ivestia, reports that the centre revolutionary committee in Siberia has been tried by the soviet tribunal at Tomsk on a charge of secret and treacherous negotiations with Japan. A. T. Krasnotchekoff, foreign minister of the Far Eastern republic and five other members of the committee were sentenced to death and shot. Six other members of the committee were given life imprisonment. The dispatch says the soviet government is now arranging an agreement with China against Japan.—Lethbridge Herald.

WEATHER DIARY, 1920

(Report by W. J. Ryan.)
Feb. 4—Bright; no snow.
Feb. 5—Bright; light west wind. Flu bad.
Feb. 6—Heavy snow storm, but not cold. Flu bad.
Feb. 7—Clear and cold.

TO ELECTRIC LIGHT CONSUMERS:

Do you know that out of every 18 cents you pay for Electric Light, 14 cents goes to pay interest and sinking fund on the money borrowed to build the plant, pole lines and to meet salaries, wages and office expenses? In other words fixed charges which do not change whether you use a great deal or very little. The only difference the consumers make is in the fuel, oil and repair bills, these amount to only four cents, after we have taken in enough money to meet our fixed charges five cents per K. W. H. will cover the rest and we will sell you current for just that amount after you have bought sufficient to cover your share of those fixed charges. Electric Washing Machines, Percolators, Toasters and Heaters are mighty nice around the place and we will sell you the current to operate them at cost. Information will be gladly given at the

MUNICIPAL ELECTRIC LIGHT DEPT.

GERMANY IS BANKRUPT AT PRESENT

BIRMINGHAM, Eng., Feb. 5.—Mr. Lloyd George, the premier, in a speech here today dealing with the recent meeting in Paris of the allied supreme council said that before the last election he laid it down that Germany was morally bound to pay for the wanton damage she had inflicted but that one could only get from a debtor what he was capable of paying. He asserted in this connection that Germany must not be allowed to pay in a way that would injure the country receiving payment—by cheap goods, for example.

The occasion of the premier's speech was his receiving the freedom of the city.

Germany Temporarily Broke
The premier pointed out, with regard to the problem of exchanges, that Germany being temporarily bankrupt, represented a baffling difficulty to the experts when it came to the question of her paying outside her own frontiers. With all these difficulties in mind, he said, the allies had reached certain conclusions last week and had presented a bill which was framed on the basis of German prosperity. If Germany were not prosperous, she could not pay and if she were prosperous she could and must.

Dr. Simons, the German foreign minister, was an honest and sincere statesman, and he had said that he meant to carry out Germany's obligations if he possibly could, continued the premier. Dr. Simons had complained that he had not received the bill in full, but he could have it at any time, for it was ready. Once the German people got their minds off the war and onto peace they would soon become prosperous, the premier predicted.

German Miners Protest
LONDON, Feb. 5.—A dispatch to the Central News from Berlin reports that workers in the mining districts of Germany are highly incensed against the reparations terms imposed upon Germany.

The dispatch adds that 10,000 copper and silver miners in Mansfeld have struck as a protest against the Paris decision. There is great agitation in the Ruhr district for the miners to do the least work possible. In several mines a six-hour day has been adopted. In Upper Silesia the miners are refusing to work the overtime ordered by the inter-allied commission and declining to accept the fifty per cent. extra pay allowed them.

Declines Present Proposals
BERLIN, Feb. 4.—"Germany does not, of course, withdraw from further negotiations, but she must decline to accept the present Paris proposals as constituting a basis or even a starting point, for renewed deliberations," Dr. Ernest Scholz, minister of economics, informed the Associated Press yesterday.—Lethbridge Herald.

CHRIST CHURCH

Sunday, February 13th.
Special Mission Services—Preacher, the Rev. W. Simpson, B.A.

Service for women only on Monday at 4 p.m.
Children's Services on Tuesday and Wednesday at 4.15 p.m.
All are cordially invited.

ALBERTA SCHOOL TRUSTEES' CONVENTION NOT GREAT SUCCESS

(By Special Correspondent)
The convention of School Trustees recently held at Calgary was not a huge success. It was in numbers, but not in results. Probably eleven hundred to fifteen hundred delegates were present, the attendance being very largely increased over prior conventions by reason of the request direct from the Department of Education to send delegates, and its circular announcement that the expenses could properly be charged to the District.

On the first day a very carefully considered paper prepared by Trustee A. B. Hogg, of Lethbridge, was read. In the P.M. a most excellent address was given by the President of the Alberta Teachers' Alliance setting forth the aims and objects of the organization. Discussion followed both papers, but owing to the weakness of the chairman no benefit was reached from the discussion. In the evening the Honorable G. P. Smith, Minister of Education spoke to a full house, and his remarks were well received and created a favorable impression. Many had hoped however that the Minister would introduce into the convention his quarrel with the Teachers' Alliance, but would endeavor to get at some basic improvement in the educational system. As one trustee remarked on the train going north "If we get one or two things of real benefit through we can be satisfied that we have accomplished something." But it would appear that the most zeal was manifested toward getting the support of the convention for the Minister against the Alliance

LOCAL AGENT—A. D. FERGUSON

rather than toward improved educational conditions. Thursday a.m. the main convention listened to a very able address by Mr. Wm. Iverach, ex-president Manitoba School Association.

During all Thursday Mr. Baker, director of the U.F.A. was in the chair, and proved most valuable in keeping order and directing the questions and discussion. In the p.m. a round table talk, report of Resolution Committee and election of officers occupied the time.

Resolutions asking Department of Education to increase grant to High Schools and Consolidated Schools were all alike turned down.

Resolution approving the action of the minister as regards new form of contract and generally his attitude toward Teachers' Alliance received support.

Resolution supporting the three Prairie Provinces in their endeavors towards getting the natural resources and ear marking a generous portion for the support of education received unanimous support.

The committee on resolutions found their task beyond anything possible and many resolutions handed in were never presented to the convention. Their greatest trouble was to eliminate motions of a personal nature, those affecting only an individual school district and those resolutions of a laudatory nature.

Some forty or sixty delegates from the cities, towns and villages met in a separate room to discuss High School Work, and real valuable information was obtained from the discussion, but their unanimous resolution urging the department to bear at least seventy-five per cent of the operating expense of all High School work was badly defeated by the convention at large. It is the intention however of this special committee to have a delegation wait on the minister and place before him the arguments and urge the necessity of the greater support if our supply of teachers is to be maintained and the road to the

Provincial University kept open.

The convention had, however, much to recommend its continuance perhaps the most good derived was the realization of the great need of reforms in the Educational System. The size of the convention, and the intense earnestness of many of the speakers would convince any person of this. An unusual amount of benefit (not often mentioned) was derived from the discussion of innumerable small groups around the corridors and hotels. Summing it all up it is probable that the greatest benefit from the convention was from the conversation in these small groups where much valuable information and new ideas were exchanged.

T. Gauthier, M. Maloney, J. Johnson, R. J. E. Gardiner, H. Rands, R. Lantinga, R. T. McNichol and J. L. Fawcett were among those from this district.

EUGENE O'BRIEN COMING IN THE "BROKEN MELODY"

In a play described as one of the most lavishly produced pictures of the season, Eugene O'Brien will again appear before local patrons of the screen when his new Selznick Picture, "The Broken Melody," opens a 2 day engagement at the Empress Theatre next Wednesday.

"The Broken Melody" is a romantic story of two young artists, a painter and a singer, who attempt to climb the ladder of fame through the sacrifice of their love for one another, only to find that love is the force that drives all ambition to success. It is a sympathetic tale of bitter sacrifices and the unflinching fidelity of two strong hearts, and is said to be the most pleasing vehicle the popular star has had.

Economy is an awful hard way to get money. It's too bad that so few of us have relatives die and leave us fortunes.

Empress next Wed. and Thurs.

HORSES RANCHERS HORSEMEN

What are you going to do with your Horses? Ship them, as always, to John H. Young B.A., "The Salesman of the West," who is again in Western Canada and who has most promising locations for a considerable number of carloads. If your animals are in good flesh catch his "Before Seeding" circuit in Saskatchewan.

Write, or better, wire him.

JOHN H. YOUNG, B.A.

1109 Portage Avenue, Winnipeg, Manitoba. 49-1tp83

INTERPROVINCIAL Weed Train

The Provinces of Manitoba, Saskatchewan and Alberta, in co-operation with THE CANADIAN PACIFIC RAILWAY Will operate a Train of Three Cars for Six Weeks in the Southern Parts of The Three Provinces

THE ITINERARY IN ALBERTA

BEGINS FEBRUARY 21st AND ENDS MARCH 5th

Two points will be visited each day as seen by the schedule below. All interested in the control of weeds, particularly Municipal Officials, Weed Inspectors and Farmers, are invited to attend these discussions.

The train consists of a demonstration car and two lecture cars. The demonstration car, chiefly for the identification of weeds, will have specimens of growing weeds, also samples of weed seeds and colored charts, etc. The lecture cars will be devoted to discussions of Methods for Control of Weeds, and the Administration of The Noxious Weed Act. The question of Soil Drifting and the Grasshopper and Cutworm Menaces will also be fully discussed. Speakers will be present representing the Departments of Agriculture for Manitoba, Saskatchewan and Alberta, the Dominion Experimental Farms and the Union of Rural Municipalities.

CURLING NOTES

We had a cup—The Cadillac—'Tis said its gone—it may come back. There's a brow ones on it track. And every nerve they'll rack Till we regain the Cadillac.

Lethbridge curlers lifted the Cadillac cup from Macleod on Saturday last after it had sojourned locally for two years. The ice was good and the contest was keen. Following are the rinks and scores:

Lethbridge—
Moore
Greenway
Marnoch
McNab—skip 13
Macleod—
A. McDonald
R. W. Stewart
J. O. Stewart
J. O. Stewart—skip 10
Lethbridge—
Yates
Freeman
Shepherd
Duff—skip 14
Macleod—
W. A. Day
D. G. Mackenzie
M. Stewart
Arthur Young—skip 11

It has been suggested to The Times that the old champions of the Cadillac Cup should play two picked local rinks here, each of the 16 contestants to drop a dollar four bits in the pot and the winners to take the jack for expense money and vend their way to Lethbridge in quest of the silverware. In case of bringing back the trophy they could then play the defeated local rinks for it on Macleod ice.

In the Northwest Jobbing Co's competition standing of local curlers to date is in wins:

Alec McLeod 9
Dr. Kennedy 7
G. Stewart 7
Dr. Kirk 7
C. P. McGladdery 6
J. Pringle 6
R. W. Stewart 5
R. D. McNay 5
R. W. Russell 5
J. W. McDonald 5
Arthur Young 4
Baird 4
Sandy Dunn 3
F. Morris 1

NEW GENTS' FURNISHING STORE FOR MACLEOD

"Mayor Fawcett 'll be there, and Struthers, Farmers all, and Joe Carruthers, All Macleod, and a thousand others."

They will all be there en masse, for the opening of J. T. Mark's new Gents' Furnishing Store on 2nd Avenue (next door to the Bank of Commerce) Macleod, next Monday.

The proprietor of this store needs no introduction to the people of Macleod and district, as he is well known to them all, at least if he is not, he should be.

For the past ten or twelve years he was in charge of the Gents' Furnishing Department of the Hudson's Bay Store in Macleod, during which time by his courteous, obliging, and always ready-to-please manner he has won a great many friends throughout the country, and it is safe to say that those friends will heartily support him, now that he has started up for himself in the Gents' Furnishing business.

Mr. Marks is by no means without experience in this line of business, in fact he has done nothing else but look after the rigging out of the male element practically all his life, and he has made a success of same, therefore it is a safe bet to assume that in stocking his own store, he will have the most up-to-date and large assortment of Gent's Furnishings that it is possible to obtain.

There is very little doubt that Mr. Marks will receive the patronage that is due to him, and that now the Hudson's Bay Store is closed, the former customers and others, who wish to be satisfied in the purchasing and outfitting in men's requirements will give him a trial, and needless to say a trial is all he asks.

The store is situated on 2nd Avenue between the Bank of Commerce and the K.A.Y. Offices, in what was formerly the Red Cross Rooms.

This is one of the men who has faith in Macleod, and if he has, we should have faith in him.

"THE BROKEN MELODY"

"The Broken Melody," Eugene O'Brien's latest picture under the Selznick banner, will be the featured attraction at the Empress Theatre next Wednesday and Thursday. It is a charming study of two artistic temperaments—Stewart Grant, a painter, and Hedda Dana, a singer, who come together through their diverging ambition for worldly greatness, and separate for a period while each go their roads that lead to fame. But love eventually reunites them, both wiser but no sadder because they find that the fame they have won apart may be shared together.

Action in "The Broken Melody" varies between Europe and America, beginning in the famous section of Old New York known as Greenwich Village, from thence to Europe and back again to America. It is a simple love story done with charm and distinction, and should appeal to all lovers of good drama.

"The Broken Melody" was written by Ouida Bergere and directed by William P. S. Earle. Both author and director are foremost in their respective arts, and the result is a photoplay that is thorough in every respect. The star has been given a notable supporting cast, headed by Lucy Cotton and Corrine Barker, and the completeness with which Selznick produces a play is absolutely evident in this picture.

PUBLIC SCHOOL HONOR ROLL GRADES I to VII

Standing of Grade VIII Pupils

Grade I, Jr.—Myrtle Trotter, Alice Freeman, Frank Filbe, Fred Wright, Hugh Young.

Grade I, Sr. Class A.—Jack Greenwood, Bernard Perkins, Hilda Moore (equal), Class B.—Edith Davis, David Cooney, Daisy Gibson.

APPENDICITIS

Warm Water Properly Applied Prevents Operations, and Has Cured Many Advanced Cases

Hundreds of operations for Appendicitis have been avoided by the "J. B. L. Cascade," and thousands of others who have had Stomach Trouble and Constipation for years have regained their health completely. Most troubles arise from poison accumulated in the Colon, which is absorbed into the system. Internal Bathing keeps the system clean, cures Constipation and the hundreds of ills which are directly traceable to it.

These letters from among thousands in our possession should convince you that Internal Bathing brings positive results. Mr. James McLaughlin, 91 Evanston street, Winnipeg, writes: "I bought a 'J.B.L. Cascade' for the cure of a bad case of Appendicitis. My doctors told me I must have an operation at once. I had spent more than fifty dollars in doctor bills, but the Cascade completely removed in a few days every trace of soreness and pain. I eat and sleep well now, have regained my former weight, and am now in perfect health."

A Mother from R.R. No. 1, Leamington, Ont., writes: "About two weeks ago our eldest son took sick with Cramps in the Bowels so bad he could not move. Our doctor gave him hypodermic injections and ordered him to the Hospital to be operated on at once. Before doing so, however, I induced him to use the 'J.B.L. Cascade,' and in less than a week he was up and around, and has been well ever since. It also cured me of severe Headaches and Constipation. I cannot praise the Cascade enough. It certainly is a wonderful invention."

If you have Constipation, Headaches, Appendicitis, or feel languid and not just right, don't drug yourself, bathe internally. The "J.B.L. Cascade" is being shown and explained at A. D. Ferguson's, Druggist, Macleod, Alberta.

Ask for booklet, or write Tyrrell's Hygienic Institute, 163 College Street, Toronto.

USES FOR KEROSENE

Put a little kerosene in the water when washing windows; they dry quicker and look much brighter.

Rub flatiron on cloth wet with kerosene. Your irons will never stick. Use a cloth that has a little kerosene on it to dust your range mornings and afternoons.

Kerosene will clean even the most grimy and dirty porcelain bath tub. It is also good for the tiled bath room floor.

You can cover up all scratches, take up every particle of dust and keep your floors looking fine all the time by using a cloth wet with kerosene.

Kerosene will remove finger marks from oiled furniture.

Let the knockers strike—no one wants them on the job anyway.

MACLEOD BEATS
LETHBRIDGE 5-1
LAST FRIDAY

In the best and fastest hockey game here this season Macleod administered a decisive beating to the haughty Lethbridge aggregation. This array of talent was heralded as sure winners, but after the game it appears from the Lethbridge paper that the team was composed of cripples only, whether mental or physical it has not yet developed, and to admit which would be invidious to the status of our neighboring city's population physically, as it is understood the team represented the cream of the Lethbridge athletes. As far as was apparent to the naked eye the Lethbridge lads were in the pink of condition.

Two and one half minutes after the face-off Levasseur and Powers engineered a pretty piece of combination and Levasseur netted the rubber for the first score, this was hardly cricket as the Lethbridge team had counted on securing this honor for themselves and needless to say were rather surprised. Twelve minutes later Levasseur again bulged the net, this time with the assistance of McParland. This ended the scoring for the first period which was a mutual surprise.

In the second period Lethbridge came to life and the redoubtable Mr. Grant late of the Calgary Wanderers justified his existence by scoring a goal unassisted, but Lethbridge had hardly recovered from their surprise at this unexpected bit of fine work when Levasseur again stepped out and nobly abetted by Murphy scored his 3rd goal for Macleod. By this time the rink was in an uproar and great wailing and gnashing of teeth arose from those gentlemen who had neglected the opportunity of covering the shekels of the Lethbridge tribe which had been freely offered. Oh death where is thy sting?

The third period was composed of end to end rushes in which Macleod was in possession of the puck for the greater part of the time and in the struggle a 4th goal was scored for Macleod by Powers. Notwithstanding the able efforts of Boucher who had been playing a star game for Lethbridge the visitors were unable to score again and shortly before time was called Levasseur once more opened up on the Lethbridge goal and to all appearances scored, but as the goal umpire was unable to give a decision the goal was not allowed.

The Macleod team was simply unbeatable and their team work was wonderful to behold and it is most unfortunate that the schedule has so far advanced before they had facilities for practice, as it is obvious that they outclassed the opposing side. This was freely admitted by the opponents, but the disgruntled supporters were apparently not aware that such was the case and sought to belittle the efforts of both teams by referring to the Lethbridge players as cripples.

It would be invidious to single out any of the Macleod players as their team work was unexcelled but if anyone was outstanding it was M. Levasseur, who will certainly be heard from in higher circles.

For Lethbridge Boucher and Podger performed very ably and had they had the support they deserved no doubt the game would not have been so one sided.

A word must be said on behalf of the officials who handled the game in a masterly manner.

Macleod 7—Blairmore 2

The Macleod Hockey Team defeated Blairmore on local ice on Wednesday night to the tune of 7-2. While the ice was slow the game was keenly contested up to the last period, at the beginning of which the score stood 2-2—but the last period was Macleod again and again 5 times. The game was clean throughout and the best team won. Following is the line-up:

Blairmore	goal	Macleod
Ennis	McDonald	
Barbour	defence	Fritz
Elwyn	defence	Murphy
Goddard	R. Wing	McParland
Graham	centre	Powers
Vogapavo	L. wing	Levasseur
McLeod	Sub.	Byrne
Brown	Sub.	

Referee, Hammond; Judge of Play, J. Turner.

Score
1st period—1st Blairmore, Brown.
2nd period—2nd, Macleod, Levasseur;
3rd, Macleod, Levasseur; 4th, Blairmore, Brown; 5th, Macleod, Levasseur.
3rd period—6th, Macleod, Murphy;
7th, Macleod, Powers; 8th, Macleod, Fritz; 9th, Macleod, Murphy.

The local team is showing up strong and without doubt had they the advantage of facilities for practice on standard ice earlier in the season they would easily have topped the league.

LOCAL AGENT—A. D. FERGUSON

DEATH OF MARY ETHEL
MULDOON

Mary Ethel Muldoon died at Wilkie, Saskatchewan, on Monday, February 7th, after a protracted illness resultant from pneumonia.

The deceased was thirty-three years of age and was the daughter of Mr. and Mrs. J. P. Muldoon, formerly resident here. Miss Muldoon had been teaching school for the past four years at Wilkie up to about four months since, when she fell ill with pneumonia, which culminated in her death. The body was brought to Macleod to the home of the deceased's uncle and aunt, Mr. and Mrs. E. J. Muldoon, and funeral services were held at the Presbyterian Church at 10.30 on Thursday, February 10th, after which interment took place in the Union Cemetery.

The departed one is mourned by her mother and five sisters—the father it will be remembered having died at Macleod some years since.

It's peculiar how proud a man is of himself and how he pats himself on the back for having a little backbone, after the fear that some of his friends will jump all over him for daring to assert himself has proven groundless.

TO AN INKSTAND

Ever faithful, near at hand
Like sentry on my desk you stand,
Ever giving without quibbling
Color enough for all my scribbling.

Yet when I've drawn your fluid clean
And naught but dregs in you remain,
I cast you out, like trash forgot,
For causing just one old age blot.

I cringe! This is much the way,
I'll go at close of some hard day.
Here boy! Give this a renovation,
Twill work all right with a good vacation.

—H. D. Thompson in the New York Sun.

INDIA AND EGYPT

(The "Scotsman," Edinburgh.)

India will enter in the coming year
upon a new constitutional era. The
experiment, it is hardly necessary to
say, is fraught with great possibilities
for good or evil. India, with its vast
illiterate population, its enormous
social divisions its religious and caste
distinctions and differences, is a coun-
try which has neither a homogeneous
spirit nor a clearly articulate voice.

Not for many years to come can it be
ripe for full democratic government.
Nor, it is to be feared, are the politi-
cally conscious class, upon whom
will depend the success of the experi-
ment, in all respects fitted for the
new responsibilities which they have
eagerly sought. But the future need
not be pre-judged. India has been
given an opportunity of justifying the
claims which have been made on her
behalf, and if it is shown that pros-
perity and order are not compromised
by acknowledging the right of In-
dians to a larger share in the govern-
ment of their own country, the Brit-
ish people will have no reason to
regret the liberality of the new con-
stitution. The scheme has on the
whole been well received by the In-
dian political leaders, although an
exception must unfortunately be made
in the case of Mr. Gandhi and his
followers, who have started what is
known as the non-co-operation move-
ment, a form of passive resistance.
It would be a mistake to ignore Mr.
Gandhi, but it would be equally a mis-
take to overrate his influence.

In Egypt as in India the event of
the past year has been the proposal
for a new constitution. The work of
drafting a possible basis of agree-
ment was entrusted to the Milner
Commission, and in the early months
of the past year prolonged confer-
ences took place between Lord Milner
and the Egyptian Nationalist leaders.
The result was the formulation of a
draft scheme which Zaglul undertook
to lay before his colleagues in Egypt
in order to obtain expressions of op-
inion upon it. Its reception in Egypt
was at first highly favorable; but later
the extremists of the Nationalist
party began to make their voices
heard, and Zaglul Pasha's own ap-
proval was reported to be weakening
under the pressure which was being
brought to bear upon him. At the
present time the fate of the scheme
can only be regarded as conjectural.
When the Cabinet deliberate upon the

question, Lord Milner has let it be
known that he will strongly support
the proposals in the scheme; but
doubtless his advocacy will be tem-
pered by an estimate of the expecta-
tions, now less strongly held than
formerly, that Egyptian Nationalists
will accept the constitution and work
loyally.

There should be some method de-
vised for conserving the energy wast-
ed by some people in keeping away
from work.

After paying the bills for his son's
graduation, the "old man" wouldn't
write as optimistic a graduation ad-
dress as he did when a kid.

Few people ever become sufficiently
satisfied with their supply of worldly
goods to be able to tell some folks the
things they would like to.

A trustful wife is one who doesn't
inquire too closely into hubby's doings,
because she knows if she did she
would lose faith in him.

Only a fool never changes his
mind—and the supply of wise men is
not overly large.

A woman might make a model wife
and not come anywhere near the pro-
portions of the Venus de Milo.

INTER-PROVINCIAL
WEED SPECIAL TO
TOUR PROVINCES

The Departments of Agriculture of
Manitoba, Saskatchewan and Alberta,
together realizing the pressing serious-
ness of the weed situation, have
arranged to man and equip a Special
Train to tour for six weeks—two
weeks in each province. This train is
supplied and operated at considerable
expense through the generosity of the
C.P.R. The itinerary of the train in
Alberta is supplied herewith.

The train will be replete in its
equipment to deal thoroughly with the
whole weed question. There will be

two lecture cars and one exhibition
car, with full equipment and material
for demonstration. The very best pro-
curable speakers from the three
provinces will be on hand. Grass-
hopper and cut worm control together
with soil drifting troubles will also be
thoroughly discussed.

The expense of equipping and oper-
ating this train will be considerable;
but if the meetings are well attended,
the benefit will repay all expense
many times over.

Weed control is one of the most
vital, urgent and difficult matters
with which agriculture of Alberta has
to deal. Our annual loss through
weeds is enormous; but at least part
of that loss is quite preventable.

In many cases the Councillors and
Officers of a Municipality will be able
to attend at the same time and place;
and this is to be preferred; but if this
is impossible, they may attend at dif-
ferent points where the train stops.
On the itinerary we have indicated the
train stop where we believe the offi-
cers of your municipality could most
easily convene.

If you cannot drive to a train stop,
perhaps you can reach a meeting by
train. Come! Bring your suggestions;
co-operative effort is necessary.

These meetings are for all—women
as well as men; but farmers and farm-
ers' sons should compose most of the
audiences.

Come and come early. See the
schedule for exact hour when each
meeting starts.

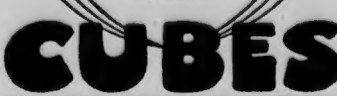

The Weed Special will be at Mac-
leod 10 a.m. Thursday, March 3rd—
See advertisement in this issue for
general schedule.

Yours truly,
DUNCAN MARSHALL,
Minister of Agriculture.

Hot OXO, or
better still an OXO
Cube in a cupful of
warm milk, is an ideal food
for children. Milk with

question, Lord Milner has let it be
known that he will strongly support
the proposals in the scheme; but
doubtless his advocacy will be tem-
pered by an estimate of the expecta-
tions, now less strongly held than
formerly, that Egyptian Nationalists
will accept the constitution and work
loyally.

There should be some method de-
vised for conserving the energy wast-
ed by some people in keeping away
from work.

After paying the bills for his son's
graduation, the "old man" wouldn't
write as optimistic a graduation ad-
dress as he did when a kid.

Few people ever become sufficiently
satisfied with their supply of worldly
goods to be able to tell some folks the
things they would like to.

A trustful wife is one who doesn't
inquire too closely into hubby's doings,
because she knows if she did she
would lose faith in him.

Only a fool never changes his
mind—and the supply of wise men is
not overly large.

A woman might make a model wife
and not come anywhere near the pro-
portions of the Venus de Milo.

INTER-PROVINCIAL
WEED SPECIAL TO
TOUR PROVINCES

The Departments of Agriculture of
Manitoba, Saskatchewan and Alberta,
together realizing the pressing serious-
ness of the weed situation, have
arranged to man and equip a Special
Train to tour for six weeks—two
weeks in each province. This train is
supplied and operated at considerable
expense through the generosity of the
C.P.R. The itinerary of the train in
Alberta is supplied herewith.

The train will be replete in its
equipment to deal thoroughly with the
whole weed question. There will be

two lecture cars and one exhibition
car, with full equipment and material
for demonstration. The very best pro-
curable speakers from the three
provinces will be on hand. Grass-
hopper and cut worm control together
with soil drifting troubles will also be
thoroughly discussed.

The expense of equipping and oper-
ating this train will be considerable;
but if the meetings are well attended,
the benefit will repay all expense
many times over.

Weed control is one of the most
vital, urgent and difficult matters
with which agriculture of Alberta has
to deal. Our annual loss through
weeds is enormous; but at least part
of that loss is quite preventable.

Minister of Agriculture.

TO:—WILLIAM JAMES CHISM,
formerly of Ewelme, in the Prov-
ince of Alberta.

TAKE NOTICE that an action No.
16999 has been commenced against
you in the Supreme Court of Alberta,
Judicial District of Calgary, this
16th day of December, A.D. 1920, by
THE CROWN LIFE INSURANCE
COMPANY to recover the sum of
\$1204.39 due under a Mortgage dated
the 29th day of November, A. D.
1909, made by you in their favor, and
also for Foreclosure of the said Mort-
gage;

AND FURTHER TAKE NOTICE
that you may deliver a Statement of
Defence or Demand that notice of
any application in this action be given
to you on or before the 8th day of
March, A. D. 1921; and in default
of your so doing the Plaintiff may
obtain Judgment and final Order for
Foreclosure without further notice to
you.

Dated at Calgary, Alberta, this
21st day of January, A. D. 1921.

THE SILVER GRILL

diner, Thewlis, McNichol, Morris and Secretary Brown.

The outstanding feature of the meeting was the report of Vernon Pearson, superintendent of public utilities, for the year 1920 and which was considered highly satisfactory especially in its showing of economies in operation of the power plant over previous years. Following is the report in full:

Superintendent Pearson's Report

February 7th, 1921.

The Mayor and Council, Town of Macleod.

Gentlemen:—

I herewith present my report for the year 1920.

POWER PLANT.

The year was quite an eventful one for the Public Utilities. In the early months of the year, one boiler was retubed and the brickwork setting taken down and completely rebuilt. A considerable amount of work was also done changing steam lines and covering same with asbestos covering.

In May the building and contents were insured for \$10,000. It was felt that the amount, though small, would protect the plant in case of minor fires. On June 22nd fire broke out in the ventilator on the boiler house roof and did damage to the extent of \$1120. Which amount was paid by the underwriters. The fire proved very difficult to extinguish on account of the construction of the roof. The fire brigade responded to the call very promptly and with the valuable assistance of the O.C. and men of the R.C.M.P. succeeded in quenching the blaze.

The damage was confined to the building, boiler and pipe coverings, no damage being done to the machinery. The Electric Light and Power service was resumed within five hours. When the roof was rebuilt changes were made which will make the roof more readily accessible in the event of similar trouble.

In July while the roof was in bad shape we were visited by a very severe hailstorm which smashed a quantity of glass and flooded the basement. In spite of hail driving through the building the service was maintained with the exception of ten minutes when a small fire broke out on the switchboard and a short shutdown was necessary to extinguish same.

On June 6th, the council gave permission to purchase a gas engine and generator for the sum of \$10,000, payable at the rate of \$500.00 per month. This set was taken from the Bowness Power House and re-erected in our plant in less than five weeks. The cost of same was slightly over

\$1,200, this includes dismantling, freight, foundation re-erection and taking out of the old Leonard set which was subsequently sold for \$2,250. All of this work was performed by our regular staff and considerable credit is due to them for energy and enthusiasm displayed on this job.

The past year was one of heavy expense for repairs. A new end for the boiler feed pump was purchased, the condenser pump completely overhauled, and a new impeller was put into the turbine pump these three items above cost over \$600.00. The retubing and resetting of the boiler cost \$500.00 and in addition considerable amounts have been paid away in wages for numerous sundry repairs. This, however, is not the only side of our activities as the following figures, which are approximate, will show:

Fuel account, 1919	\$20,000
Fuel Account, 1920	13,000

\$ 7,000

at a saving of seven thousand dollars. During the year the price of coal was raised twice and freight once, we were, therefore, fortunate in getting our gas engine in operation. The above figures will show that it has justified our expectations. We had invested in the gas engine at the end of the year \$4,280. Our revenue from water and light also showed an increase of about \$2,000 over 1919. The Macleod Flouring Mills who have for some time past been a source of loss to the plant only operated about five weeks during the year 1920 and their contract with the town has now expired.

ELECTRIC POWER AND LIGHT.

During the year a great many wires were blown down. On one occasion one transformer pole was blown down causing damage to the extent of \$350.00, this emphasises the necessity of some action being taken in the near future to overhaul the distribution system of the town, the only work of a permanent nature done during the year was 900 feet at the R.C.M.P. Barracks.

In the month of May representatives of the various cities and towns of Alberta met the Workmen's Compensation Board at Calgary and Edmonton with a view of amending the Electrical Protection Act, which covers all electrical apparatus in Alberta. Some very drastic measures were proposed, these were modified considerably but they are still sufficiently severe, particularly for those of us who are short of funds.

Apart from the Provincial laws covering distributions systems, however, it is very clear that ours will need considerable expenditure very soon if

we are to stay in business and avoid suits for damages. I estimate that \$8,000 will be required for this purpose.

In connection with the distribution of electric current there is a point I wish to bring to your attention. There are various streets in Macleod where hundreds of dollars are invested to supply current to the residents, in some cases either through vacant property or residents declining to use current, the total revenue derived from these services does not meet the overhead charges on same, this means that light users are paying for the upkeep of lines which do not earn their fixed charges; I would therefore advocate a small charge or frontage tax on property where the town electric service is available but not used.

In June discounts off water and light bills were discontinued; this has been responsible for some of the increase in revenue.

In the face of rising costs in every direction I have felt that a further increase in the charges for light and water would be necessary, wages, and everything used in operation have gone up in price but we have been able to effect economies that have offset these increases, the peak in high prices has apparently been passed and I believe we can get along with our present revenue provided we can effect further economies in power plant operation. A system was devised by which consumers might get extra current at a five cent rate. Although the public have been slow to take advantage of this system those who have tried it are well satisfied and the number of consumers on this rate is steadily increasing.

*The number of light consumers on

our books has increased through the year from 413 to 435 and water consumers from 355 to 369.

WATER OPERATION.

On account of the severity of weather and the enormous snowfall in the mountains last winter very considerable trouble was experienced for a short period in the spring in obtaining clear water. The filtration plant was in use continuously from March 18th to the 29th June during which time alum to the value of \$800.00 was used, which I believe is the greatest amount ever used in this plant in one season, and is a much greater expense than our limited revenue from this source will stand. However the water though at times very badly discolored had been filtered and treated and was free from bacteria, this is borne out by the absence of water-borne diseases through this period. The subsidence basins showed the effects of the severe season, some two thousand tons of silt were washed out after the filtering period was over. Through the summer a few men were kept at work digging up water leaks, although no money was available to carry on this work on a large scale, we had considerable success, and the result of this work is shown in our water pressure which has been increased fifteen pounds. There remains, however, a great deal to accomplish along these lines before the water pumping is back to normal.

The filtration plant is now beginning to show the effects of seven filtering seasons. Some pump repairs were necessary during the year. The hailstorm destroyed \$125.00 worth of glass and did extensive damage to the roof. In the fall, the sand beds were brought up to their original level at some considerable expense. During the months of November some trouble was experienced with the water intake at the river, a new end was put on and a new well built with satisfactory results. Through the year roughly two thousand dollars have been spent on work that can scarcely be called operation expenses but the bills have been met from current revenue. The waterworks system is the greatest burden we have. Out of an annual revenue of \$16,500 the sum of \$11,500 is needed to meet debenture interest and sinking fund leaving only \$5,000 per annum to operate the system including filtration expense. For some years past the council has made a grant of \$5,000 from taxation to assist the waterworks to carry its enormous overhead charges, this grant was cut down by the Finance Commission to \$2,000 in 1920 at a time when the money was particularly needed. In view of the fact that we are pumping twice as much water as the town actually needs it is obvious that some extensive repairs are needed if the waterworks system is to be put in good shape. The details of some economies in operation have been already placed before you. There is a certain section of the public who do not seem to appreciate their responsibility in the matter of water waste. The Town Council have granted the privilege of lawn watering and the use of water for garden purposes from the town mains, there are large numbers of people who interpret this privilege to mean that water can be used without discrimination and without reference to our capacity to pump it from the river.

If every consumer in Macleod used water at the rate of some of our most

wasteful consumers nothing short of an organized irrigation district would be of any use. Numerous requests were made through the press to the public to eliminate water waste without result and I would ask the council to modify the Water Bye-Law so that the town pumps will not be required to fulfill the duties of an irrigation dam. I feel that if the townspeople really knew the conditions which are brought about by the entire disregard of the town regulations, that is, the entire absence of water pressure in case of fire, the practice of wasting water would cease and I trust the Bye-Law will be so changed that those who act in an irresponsible way in this matter will be severely dealt with. It is not my wish to curtail the benefits which the public receive from the utilities they own, but rather to extend the benefits as far as possible. I feel, however, that I would be remiss in my duty if I did not take a very decided stand in the matter of water waste because the consequences may one day be very serious. Our service to the public may not be all that could be desired but I believe it is almost as good as we are able to maintain and pay our way. We know some of the shortcomings of the services rendered but we simply do not possess the funds to do better.

Your utilities are now fourteen years old and have depreciated probably \$30,000, against this depreciation not one cent has been set aside and in addition to this deficits have been incurred amounting to \$21,000. From these figures it should be apparent to anyone what sort of a task is before us to make the utilities pay their way and earn a surplus so that the depreciation may be taken care of. I believe that this will be accomplished provided the public understands that these utilities belong to them, that they are operated for their collective benefit and their collective co-operation is necessary to make them a success.

In conclusion I will say that this report is not quite as good as I had hoped, we have had several unlooked for expenditures and the auditors' report will probably show a deficit of around \$4,000. I can safely say, however, that the Utilities are worth \$10,000 more than they were a year ago, therefore I feel that the year has proved to say the least encouraging. Respectfully submitted,

VERNON PEARSON,

Superintendent Public Utilities.

Mayor Fawcett referred the report to the Fire, Water and Light Committee for their consideration of those portions dealing with projected expenditures with request that committee report on same at next meeting.

Dr. Kirk, medical health officer, reported some mumps—no new cases of scarlet fever and that the town was practically free from all affections of respiratory tracts prevalent at this time of year.

On motion of McDonald and Thewlis Dr. Kirk was re-appointed Medical Officer for 1921.

In the matter of vending of brooms and baskets in Macleod by the Hutterites without license—the council held that provincial statutes allow sale by farmers of farm products in all towns in Alberta without license and therefore the matter was outside of the jurisdiction of Macleod (or any) town council. Adjournment.

\$50 to \$5,000

A YEAR FOR LIFE

A CANADIAN GOVERNMENT ANNUITY PROVIDES IT

- No better life investment available
- No better security obtainable
- Cannot be seized or levied upon for any cause
- Will be replaced if lost, stolen or destroyed
- Not affected by trade depression
- Free from Dominion Income Tax
- No medical examination required

Anyone over the age of 5 years resident or domiciled in Canada may purchase.

Any two persons may purchase jointly.

Employers may purchase for their employees—school boards for their teachers—congregations for their ministers.

Apply to your postmaster; or write, postage free, to S. T. Bastedo, Superintendent of Annuities, Ottawa, for new booklet and other information desired. State sex and age last birthday.

Have You A "Twenty Pay Life Policy?"

A true story of a Canada Life Policy issued over forty years ago.

At age 30 he secured his \$5,000 Twenty Pay Life Policy.

At age 35 he received his first Dividend, which was added to the Policy.

At age 50 he received notice that his Policy, with 20 years' Dividends, was fully paid for.

At age 60 his Policy, still earning Dividends, helped him to finance the purchase of a new home.

At age 70 he withdrew the Cash Value for his own personal use. He received a Canada Life cheque for \$6140 in return for his \$2830 paid in premiums. For many years his home had been protected by insurance of \$5,000 and Dividends.

A Policy on your life may do much that you intend to do—if you live. It may pay off the mortgage, supply food and clothing for your family, keep the children at school and prevent a forced sale of your other property.

It may be all that is left of your life work—to keep you in comfort in your old age.

But—your Policy must be large enough.

The Twenty Payment Life

Our new up-to-date policy provides—

1. That premiums will cease in 20 years.
2. That dividends will be paid during the 20 years, and afterwards.
3. That if you should be totally and permanently disabled before age 60, all premiums will be cancelled, and a monthly income paid to you.
4. That such monthly payments will not be deducted from the policy at your death.
5. That after 3 years you may take a Cash Value, or receive a paid-for policy or pledge the policy as security for a loan.
6. That the policy cannot lapse while a cash value exists; that the policy is indisputable after one year; that you may reside or travel in any part of the world or engage in any occupation without affecting your insurance.

(There are many other valuable privileges.)

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, \$10,000 or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

Twenty years is a convenient period and premiums spread over that length of time are moderate and easy to handle.

Do not delay this important matter. Ask for particulars today.

MACLEOD AG' CULTURAL SOCIETY ELECTS 1st and 2nd VICE-PRES.

At the meeting of Macleod Agricultural Society held on Saturday, February 5th, directors and members present were: Alcock, Brown, Bell, Hammersley, Horner, McLean, Paisley, Shield, Zoeteman; Fawcett, Hon. President; also a few members.

It was moved and seconded that Mr. Horner take the chair.

The society read that part of the minutes of the annual meeting relating to the election of officers, and the minutes of the directors meeting at the close of the annual meeting.

Hammersley-Canning — That the minutes as read be adopted.—Carried.

Weaver-Canning—That Mr. Hammersley be 1st vice-president.—Carried.

Brown-Hammersley — That Mr. Horner be 2nd vice-president.—Carried.

Nominations were then called for to fill the vacancies on the board of directors caused by the appointment of Mr. Hammersley and Mr. Horner as 1st and 2nd vice-presidents.

Fawcett-Bell — That Mr. McFadden be appointed a director.

McLean-Hammersley — That Mr. Weaver be appointed a director.

Shield-Canning—That Mr. Patterson be appointed a director. Mr. Patterson refused nomination.

There being no other nominations Messrs. McFadden and Weaver were declared elected.

Canning-Weaver—That the secretary-treasurer, R. J. E. Gardiner, be the delegate to the Fairs Convention.—Carried.

Brown-McLean—That any member or director who can go to the Fairs Convention be given credentials by the secretary as delegate to represent the society.—Carried.

Horner-Shields—That the society hold a two-day fair in 1921, and that dates be same as last year.—Carried.

Adjournment.

At the directors' meeting immediately following, Prize Lists committees were appointed as follows:

Horses—Hugh Bell, J. R. McLean and Norman Grier.

Cattle, Sheep and Swine—J. Horner.

C. Hammersley and Joe Shield.

Poultry—J. F. Canning, W. Alcock and G. L. Pollard.

Vegetables, Grains and Grasses—A. McFadden, R. McNab and H. Maunsell.

Plants and Flowers—H. W. Bright and E. F. Brown.

Dairy and Domestic—Hugh McLean, Mrs. F. A. Adams and Mrs. R. J. E. Gardiner.

School Work—R. T. McNichol, Miss Atkinson and Principal Hoffard.

Ladies Work—Mrs. Leather, Mrs. Matheson, Mrs. Embury, and Mrs. Grady.

Sports—J. Paisley, L. Zoeteman, John Daly, G. H. Scougall and Alex. Schnarr.

Attractions and Booths—H. Mackintosh, C. Hammersley, J. L. Fawcett, J. Horner and the Secretary.

It was decided to hold the next meeting on Saturday, February 26th, and the committees were instructed to report at that meeting.

Adjournment.

NO OPEN SEASON FOR TRAPPING OF BEAVER

There is no open season for trapping of beaver—these animals may not be trapped, taken or killed except in case of their destroying property and then only by special permit from the government.

A FRIGHTENED POMPADOUR

Harold Lloyd has been besieged with letters from moving picture "fans" telling him how he made his hair stand up in "Haunted Spooks."

Some declared that he was dailed to the floor and turned upside down. Others believe that strings were tied on his hair and the strings pulled on signal. Still others said he wore a specially prepared wig and magnets were used to attract it.

None of these are correct, but if you watch carefully in "High and Dizzy," Harold Lloyd's newest mirthquake special which is at the Empress Theatre Monday and Tuesday, perhaps you can see how it is done.

HART-PARR 30 Is Now a Movie Star

PLAYS IMPORTANT PART WITH WILLIAM DUNCAN IN BIG SERIAL—"THE SILENT AVENGER." Read the Letter from Mr. Duncan, which follows:

THE VITAGRAPH COMPANY

Southern Border Motor Co., 204 N. Los Angeles Street, Los Angeles, California.

GENTLEMEN: If I neglected to tell you of the wonderful performance of a Hart-Parr Tractor in one of my chapter plays, "The Silent Avenger," I would be unfair to you and lacking in appreciation of an excellent piece of machinery.

I duplicated the stern and propeller of an ocean liner in a tank 40 x 60 feet, containing 15,000 gallons of water. It was a difficult position from which to sustain power as the shaft was low and the resistance of the huge propeller in the water was tremendous.

But, as I visualized the scene of my story, my life actually depended on the performance of the motor I used. I had to be drawn toward the giant screw as it churned the water into foam. Toward had to be absolute, because if the action of the water had thrown me too close to the wheel the result can easily be imagined. I wanted power that would turn that propeller at any speed I required and a motor that would stop on the instant.

I experimented with stationary engines. I couldn't get what I wanted. Then I tried the Hart-Parr Tractor.

The effect was ideal. The propeller speed could be controlled accurately and a perfect propeller wake was maintained. I executed the dangerous scenes required without undergoing unnecessary hazards.

I assure you that whenever I need power delivered under trying conditions I shall rely, as in this instance, upon the Hart-Parr Tractor. I congratulate you upon representing such a highly satisfactory machine.

Very truly yours, WILLIAM DUNCAN.

Syrup of White Pine and Tar for coughs—Get it from R. D. McNay, Druggist.

Just a reminder—W. G. Andrews has a full stock of spring hardware necessities at right prices.

Miss A. M. Wilson will sell you trimmed hats (lovely creations of the milliner's Art) at half price.

All shoe repairs, rubber heels, rubber golfing and walking studs at—W. K. Mackie's, shoemaker, next Town Hall.

See D. R. Carse for that job of plumbing, gas fitting or steam fitting. Prompt and efficient service guaranteed.

Reach & Co.'s special bargains are profitable reading—look up this

store's announcement.

Twenty per cent discount on all ready-made suits and overcoats now in stock at J. W. Moreash's tailoring emporium.

For all kinds of building and contracting—general carpenter work—go to C. W. Stevens, 24th St., opposite Times Office.

Two heads are better than one—also two loaves of Bawden's excellent bread are just twice as good as one—Bawden's Bakery.

Go to Lambert for estimates on your building or other carpenter jobs—you know from his record he will give you satisfaction. Shop phone 4—House phone 82.

Electric light consumers would do well to read the announcement of the Municipal Electric Light Department—It tells how to obtain cheaper electric service.

H. Pitkin & Co. have opened up a second hand store in the building opposite the post office. The new firm announces—buying prices right; selling prices right; and a fair trade. Read their advertisement.

REACH & CO.

Last week we advertized Waists, Middies and Blouses at cost and less than cost. Through stock taking not being finished in time it will compel us to have the sale of Blouses extended for another week, which will give parties living in the country additional time to get one of them at the slaughter price.

For the next two weeks our whole stock of Boots and Shoes—Men's, Womens', Boys' and children's—will actually be offered at cost. We have given our private cost mark to the clerks. So that the original markings will be on the goods and all they have to do is to sell you at the cost price marked. You probably will never have the same chance again.

We have two pieces of Blanket Cloth at actual cost to offer you—64 inches wide. You can get one of our Butterick Patterns and make up a coat for the girl, a coat or mackinaw style for your man or boy. Buy a yard or two now for next year. Don't ever expect to see again the low prices of the past, with high wages and raw material.

WATERTON LAKES PARK

This very popular summer resort bids fair to become Southern Alberta's winter playground as well. The ice on the lakes is perfect for skating and the skaters can spin along for miles. There are now two 4 passenger ice-boats on the lake and are by far the most popular pastime. As these boats are capable of making up to 175 miles per hour in a good strong wind, one can imagine the thrill of a ride on a ten mile sheet of perfect ice. Several one passenger boats are now under construction by local residents. Snow shoeing and skiing are also some of the sports indulged in but owing to the very mild winter, no efforts were put forth, as heretofore, towards building a toboggan and ski slide.

Many townspeople have taken advantage of the excellent condition of the roads this winter and visited the park lately. Included among the visitors in January were R. W. Snyder of Calgary; T. H. Scott of Pincher Creek; Mr. Bringham of Lethbridge; J. H. Norman of Calgary; E. Christianson and son of Idaho; J. W. Walker of Macleod; H. Hansen of Pincher Creek; J. S. McFarlane of Keene, Ont.; S. Layne of Cardston; F. M. O'Brien of Glacier National Park and many others.

Arrangements are under way for a big free dance and supper followed by a moonlight skating party, at which time the use of the iceboats will be at the disposal of the visitors and no doubt it will be one of the most enjoyable week ends ever spent on the park. No date has yet been settled upon but due notice will be given so that all wishing to attend will know in good time.

A very painful accident occurred to park employee D. C. Simpson, a few days ago, almost amputating his right toe with an axe. This also applies to park employee W. Lynch who had the misfortune to fall in front of a sleighload of logs, which passed over his right foot, necessitating his removal to the hospital in Pincher Creek. Both men are now progressing favorably.

The Park Authorities have maintained a crew of workmen during the winter improving the roads, clearing, etc., and generally beautifying the townsite. Three large new attractive buildings have been erected for park purposes and are quite an attraction to the park.

Messrs. Haug and Allred, who have purchased the local hotel, have been busily engaged all winter remodeling and improving the property and have also erected a number of new buildings for the accommodation of the public.

Mr. Bevan, the Park Superintendent, was called to Ottawa on January 21st in connection with proposed improvements to be undertaken, etc. for the coming year.

A large addition is also under construction on the dancehall, which will double the floor space and will no doubt be appreciated by the dancers.

2 new summer cottages are being erected by C. J. Danielson of Waterton Park, for Dr. Pickup and R. S. Eldridge of Cardston.

The wild game, deer, sheep and goat are quite tame and may be seen daily in large numbers around the townsite.

SALVATION ARMY NOTES

The services last Sunday will long be remembered. There were open air meetings morning, afternoon and evening, and it was surely enough to bring conviction upon people to see what "God had wrought" in the person of Happy Jim Miller, the converted highwayman. We humbly ask is anything too hard for God? The evening meeting was in charge of Adjutant Hardie of Lethbridge, Sergeant Proctor of Calgary and Happy Jim Miller, and truly we can say: "Salvation makes us happy, salvation makes us free"—and that is the experience resulting from genuine conversion.

There were Salvation songs, prayer offered by Adjutant Hardie, song by Happy Jim, "Jesus Lover of My Soul," in which the congregation joined. A solo by Sergt. Proctor which blessed many hearts. The band then gave a selection while the offering was taken. Adjutant Hardie preached from Two Kings, 6 ch. We must notice in this lesson that Elisha represented Jesus, and they were unwilling to make a move without Him. The teaching we gather is that it is not wrong for us to advance, or get more of the things of this world, provided we consult God first in all we do. A story was told of a little child who had been accustomed to

DOWN AND OUT

A boob there was and he lost his head,
Even as you and I,
And he quoth to the lady: "Let us wed,
It's as cheap for two as one," he said,
Even as you and I,
He hustled around and hired a flat,
Even as you and I;
Installment furniture and all of that,
But his gas is gone and his tires are flat.
The profiteers have him on the mat,
Even as you and I.

—Kansas City Star

prayer in the home. Her father became careless and indifferent and the little girl said "Goodby Jesus, we are going West." Alas! How many have failed because God has been left out of the question. Your life is not your own; we are only here for a little while and we have to return to Him, and all have to appear before the judgment bar of God and give an account for all deeds, idle words, wasted talents, and neglected opportunities. God did not call you or me to be great, but to be faithful. The rich young ruler could have had money and Jesus, but would not separate himself from the world and its ways. Many make preparations for everything but death, which none can escape. Voltaire begged that his books be destroyed—he had to meet God. Bob Ingersoll said "There is no God," in dying said "there is something in religion. Saul neglected his opportunities and took his own life. Jesus was cut down, so to speak, that all may live and that you and I may go free. God is setting His seal upon these meetings and one backslider returned to God and a young boy found Jesus, for which we are glad, as these boys of today are the men of tomorrow to make future history.

Do not forget young people's demonstration February 28th. All are welcome to these meetings.

BRITISH AND JAPS IN DISAGREEMENT

TOKYO, Feb. 4.—Information regarding the differences which are alleged to have developed between Japan and Great Britain in regard to the administration of former German islands south of the equator has been demanded by Kotaro Mochizuki, a leader of the opposition party. Foreign Minister Uchida, speaking before the Japanese diet on January 22, referred to the South Pacific Islands, where Japanese have acquired property rights declared that Great Britain maintained the clause of the Versailles treaty guaranteeing adherence to the principle of equal opportunity in mandated districts, should not be applied to the administration in islands in the south seas.

The Japanese, he said, had taken a contrary view but had tentatively accepted the British theory, reserving the right to resume the negotiations and to insist upon right of Japanese in the islands over which Britain has been given a mandate.—Lethbridge Herald.

NEWSPAPERDOM IN OLD COUNTRY

LONDON, Feb. 5.—The amalgamation of the Pall Mall Gazette and the Globe, which was announced yesterday comes in consequence of the crisis through which the British newspaper world is passing owing to the

increased price of newsprint and the higher wages of editorial and mechanical staffs. The Globe, the oldest evening newspaper in London, having been established in 1803, has changed hands a number of times in recent years. It has been on the market for some months, as are other London papers.

Another amalgamation recently concluded is that of the old established Plymouth Western Daily Mercury with the Western Morning News, which Sir Leicester Harmsworth, brother of Lord Northcliffe acquired. The Mercury frankly announced that the working expenses had forced the owners to give up a half century fight against its rival.

At a recent meeting of newspaper owners to consider a claim for higher salaries by the newspaper writers' union, decision was taken, it is understood, to suspend publication for at least six weeks if the demands were insisted upon. Some Sunday papers also are threatening to close down if their mechanical staffs do not agree to moderate wages for Saturday night work.—Calgary Herald.

WATERTON NOTES

A very enjoyable meeting of our U.F.A. Local was held on the evening of Feb. 2nd. Mr. Edgar, Mr. and Mrs. Heath and Misses Edgar were present by request and delighted us with several selections of music. Edna and Arthur Perrin contributed nicely to the programme, there was a quite lengthy report of the recent U.F.A. Convention in Edmonton and Mr. McFadden reported recent development re irrigation and railroad. God Save the King and refreshments brought a pleasant evening to a close. We would like to see all our members attending these meetings. They are generally quite worth while and our young people are becoming interested in getting up good programs. It has been thought wise to hold the meetings oftener than once a month until spring opens, and the next is to be Friday evening, Feb. 18th. We intend studying such subjects as Proportional Representation; The Grain Growers' Guide, Where, When and by Whom Established, owners, Editors and What It Has Done and is Doing for the Farmers; History of United Grain Growers, Ltd.; Proposed Wheat Pool Contract, Etc., Etc. And to add variety we propose to have dialogues and recitations and songs by the juniors and young people. Visitors are welcome. Come and enjoy the good times with us.

LOCAL AND PERSONAL

A THOUGHT FOR TODAY

It isn't necessarily the right road
because it's well beaten.

R. Lemire was a business visitor in
Macleod Wednesday.

Inspector Risk, of the A.P.P. Leth-
bridge, was in Macleod on business
Wednesday.

Mr. George Lewis has gone to Cado-
gan to take a position in a drug store
at that place.

Rev. W. T. Young, of Blairmore,
was a visitor at the Methodist par-
sonage on Wednesday.

Mrs. H. Little and little Miss Jessie
Little are spending the week-end at
Lethbridge visiting friends.

Mr. and Mrs. C. E. Jones, of Cal-
gary, were guests of Mr. and Mrs. W.
A. Gordon during the past week.

Judge McNeill spent Ash Wednes-
day at his home in Macleod, returning
to judicial duties in Calgary later.

Mrs. H. W. Bright is spending a
couple of weeks' vacation visiting
with her sister, Mrs. A. Mitchell, at
Coaldale.

Mrs. Phil Rutledge and children re-
turned to their home in Macleod last
week after a prolonged visit with

home folks in England.

Hugh Black, of Spokane is visiting
friends in Macleod this week.

W. G. Brooks-Avey, lately account-
ant with the Union Bank at Hanna,
arrived in Macleod Tuesday to take
up like duties with the Union at this
point.

Among those from Macleod who at-
tended the I.O.D.E. Ball at Lethbridge
last Monday night was Miss Margar-
et McCartin, R. F. Barnes and Ryder
Davis.

The dance held in the Parish Hall
on Monday evening last was thor-
oughly enjoyed by all in attendance.
Excellent music was supplied by Miss
M. Watson and W. J. Ryan.

A. C. Fraser, of Sydney Mines,
Cape Breton, was the guest of Mr.
and Mrs. F. T. Fraser during the past
week, having stopped off at Macleod
to visit his brother on his way to the
coast.

The Times has been asked to cor-
rect figures as to delegates in at-
tendance at the U.F.A. convention
which in the Rathwell U.F.W.A. notes
last week read "400"—the figures
should have been "1400."

Irrigation for Macleod South is now
progressing, the plans have been com-
pleted by the Irrigation Office in the
City of Calgary, and have been for-
warded to the government surveyor
at Edmonton.

The Teaching Mission being con-
ducted in connection with Christ
Church here by Rev. W. Simpson, rec-
tor of St. Barnabas Church, Calgary,
is eliciting a good attendance and
much interest is being evinced in the
work.

The Gas Engine Evening Class, un-
der the tuition of Vernon Pearson,
goes merrily on and Superintendent
Pearson is suspicious of his unknown
possession of hypnotic influence in
that he holds the rapt attention of the
members of the class for as long as
three hours of expounding without the
least sign of flagging interest. This

BONDS

Are the highest grade of securities

fortable position. Let me send you
particulars of this method.

GEO. H. SCOUGALL
MACLEOD — ALBERTA

class is proving an undoubted success
and reflects great credit on the school
board in their choice of an instructor.

The Rev. Dr. Westgate, Field Secre-
tary M.S.C.C., of Winnipeg, and Mrs.
S. Houlton, W.C.T.U. of Calgary,
were the guests of the Rev. and Mrs.
Middleton, St. Paul's School, during
the re-union of the Old Boys' Asso-
ciation.

J. Bawden states it is unnecessary
to go outside of Macleod to find hens
capable of doing their duty in the
egg-laying line—Mr. Bawden has four
single comb Rhode Island Red pullets
that collectively laid 86 eggs during
the month of January.

During the fore part of the week
R. F. Barnes, barrister, Macleod, was
called to Lethbridge in consultation
with legal talent of that city in mat-
ters pertaining to a case to be ad-
judicated on at the next sitting of the
supreme court at Lethbridge.

The Case Service School Course in
Tractor Instruction held at Macleod
on Tuesday and Wednesday this week
drew a large attendance and proved
to be most instructive to those inter-
ested in gaining information as to
operation of tractors of all makes.

The Times is in receipt of a letter
from Hugh Mackintosh in which he
states that the "Weed Special"
brought large crowds at all points in
Manitoba, and in which he voices the
hope that Macleod farmers will turn
out en masse when the "Special"
reaches here Thursday, March 3rd.

The dance given last Tuesday eve-
ning by the G. W. V. A. was a great
success—all in attendance enjoying
themselves immensely. The dance
was conducted along the same lines
as the Saturday night affairs and
was put on as a special before the
commencement of Lent.

Loring H. Putnam, barrister of
Blairmore, was a business visitor in
Macleod Wednesday and was a wit-
ness to the sad spectacle of the Blair-
more champions sliding to defeat at
the hands of the local hockey heroes.
Mr. Putnam smiled with Macleod ev-
en while he shed a bucket full of sym-
pathetic tears for Blairmore.

A regrettable feature of the Blair-
more-Lethbridge hockey match on
February 2, when Blairmore played
under protest, asserting that one of
the Lethbridge players, Grant, had no
amateur card, was disposed of Satur-
day by President Long who dismissed
the protest on the ground that Grant
had proved his possession of an am-
ateur card and was therefore eligible
to play.

The old boys of St. Paul's Mission
held a most successful re-union Sun-
day, Monday and Tuesday of this
week. Mike Mountain Horse was el-
ected president for the ensuing year,
and the meetings closed with a most
enjoyable banquet at which a hun-
dred guests were present. A full re-
port of the proceedings will be pub-
lished in a later issue of the Macleod
Times.

Just a word about the Hockey Club
Dances—the local club is in the hole
to the extent of about \$300—the local
boys have conceded the old axiom that
"God Helps Them that Help Them-
selves"—they have done their blam-
edest to hoe their own row—what about
everyone turning out to these dances
and helping our bunch of energetic
local sports to clamber up onto the
levels of financial equanimity.

At the lately held annual meeting
of the Macleod U.F.A. Co-operative
Association there was a representa-
tive gathering of shareholders and
considerable new stock in the asso-
ciation was disposed of, placing the
organization in a stronger than ever
financial position and affording them
excellent prospects for the future in
enlarging stocks and branching out in
more extended commercial activities.

The first of the series of Hockey
Dances was held in the Town Hall
on Friday last and proved to be a
very successful and enjoyable affair.
It was well patronized by the towns-
people and the Lethbridge hockey
fans and their friends were also in
attendance, and apparently enjoyed
themselves very much. We think that
it is a nice idea to entertain the visit-
ing hockey teams and friends after
the games as it tends to good fellow-
ship and clean sport. The Hockey
Club dances should be well patronized
by the public as they have been under
great expense running the rink un-
der unfavorable conditions this year
and have consequently been put to
considerable expense.

A full-grown man leading a poodle
dog around comes about as near our
idea of a fool as anything we can
think of.

J. T. MARKS' GENT'S FURNISHING STORE

GERMANS PAYING SMALLEST TAXES

PARIS, Feb. 4.—A comparative
table of taxation in Germany and
three of the allied countries, Great
Britain, France and Italy, compiled
to show Germany's ability to bear a
greater burden, in a statement was
issued today by the experts who par-
ticipated in the Brussels conference.
Germany has a per capita tax of 509

marks, in France 390 franc, in Italy
200 lire, and in Great Britain £22.
On the basis of yesterday's New York
exchange rates, the per capita tax in
dollars in Germany is \$7.30, in France
\$28.08, Italy \$7.34 and in Great Brit-
tain \$83.87. There is no table given
of wages and prices, showing what
the purchasing power of the various
monies are, so that exactly what pro-
portion of the average man's earn-
ings is taken for taxation is not

shown. Tax receipts for the current
year in Germany amount to 38,596,-
000,000 marks, France 15,471,000,-
000 francs, in Italy 7,400,000,000
lire, and in Great Britain £1,031,150,-
000.—Lethbridge Herald.

A man in Philadelphia claims to
have gotten drunk eating onions. This
is a happy combination—making it
possible to get drunk and kill your
breath at the same time.

Makes Time Fly

You can fill your long winter evenings with fun if you
have a Columbia Grafonola. You can dance or listen to
the latest popular song hits. You can hear great opera
singers and famous instrumentalists. Call and let us show
you this beautiful instrument.

For shorter winter nights, for fun and frolics and rollick-
ing dances, get a Columbia Grafonola and make your
selection of Columbia Records:
